

Mondays, 12-2pm in the Teen Zone at the Kalispell Library

This summer workshop is geared towards kids who are confident and ready to MASTER their LEGO skills. Creative additions and challenges to be expected. Come imagine, build and engineer with us!

June 29 - PARACHUTE CHALLENGE

Fashion a parachute to a LEGO build that can carry a mini figure through the wind tunnel.

July 6 – RACE CAR CHALLENGE

Design a LEGO car that is built for speed. Try it out against another car on a special race car track.

July 13 – ZIPLINE CHALLENGE

Give LEGO figures a safe ride from top to bottom on an exciting but stable zipline.

July 20 – SMALL WORLD CHALLENGE

Create a wonderfully unique small world using your imagination, mini objects and animals and a lot of LEGO bricks.

July 27 – HEXBUG MAZE CHALLENGE

Build a creative, winding maze that a Hexbug Nano can successfully navigate from start to finish.

August 3 – ERUPTING VOLCANO CHALLENGE

Construct a big, beautiful LEGO volcano that can withstand a baking soda-vinegar eruption.
