wonderfully, I loved the teen
zone and the coral reef
center! It was so fun!

I would like to have a table to sit at on the
Main floor. Thank you.

Ken,

Thank you for reaching out to us with your request to have a table available at the main floor of the Kalispell Library. We do have one table on the main floor, just south of the staff desk against the south facing windows. There are electrical outlets at this table, so you can plug in a laptop or phone there if needed.

We would like to have additional seating on the main floor; however, we have found that the need for collections and other services has left little space for more tables. In our plans for a new Kalispell library, we will be sure to advocate for increased seating throughout the building.

Please let us know if you have any questions about our current seating arrangements, or if there is anything else that we can help you with. Take care!

Tony Edmundson

I am so disappointed that you closed
Marion. I was a big user of that library. School
OK with it. We have volunteers willing to transport books
to save costs. Also there was not a lot of PR so
many citizens could know about the hold's station library.
